To Whom It May Concern:

I was attracted to EmploymentSkipTracing.com when I saw they are endorsed by ACA International. Having been a member of ACA for several years, I felt more confident entrusting our debtor's personal information to them.

EmploymentSkipTracing.com has proven to be an extremely effective method of locating employment on our debtors at a very reasonable rate.

EmploymentSkipTracing.com makes it easy to upload assignments and they are always happy to accommodate our needs. I highly recommend them to anyone in the collection industry as a valuable tool in their skip tracing arsenal.

Sincerely,
