WE'RE IN THE BUSINESS OF SERVING PEOPLE

To Whom It May Concern;

As a company engaged in consumer financing within the subprime sector, a certain amount of loss is to be expected. However, since we began our association with Steve Singer and EmploymentSkipTracing.com in 2012, our net losses have been substantially mitigated and profit and loss recoveries have never been higher.

As we collect our own receivables, Steve Singer's up-to-date, reliable, and cost efficient employment results have had a significant benefit to our operations and have resulted in higher ROI's throughout our company's twenty-eight branches.

We can confidently recommend the results provided by EmploymentSkipTracing.com and believe them to be of tremendous value to any endeavor engaged debt collection via garnishment.

Sincerely,

Richard Parker III
