

April 7, 2021

Employment Skip Tracing has contracted with GadellNet Technology Solutions to perform Quarterly Vulnerability Scans, Vulnerability Risk Assessment, and Mitigation Processes.

GadellNet uses Nessus by Tenable Security for Internal and External Network Scans.

GadellNet has worked with Employment Skip Tracing to adhere to compliance standards as required by the NIST Cyber Security Framework (CSF). As of March 20, 2020, Employment Skip Tracing has met all security controls with at least Partial Implementation Tier adherence.

GadellNet based this assessment on review of Employment Skip Tracing technical safeguards, policy review, and interviews.
